ABOUT

Obviously I am passionate about technology in all its aspects and in every field of application. I never settle for what I do and monotony is just what I would like to stay away from.

I am a skydiver so I expect a dynamic job, risky but above all not monotonous. I love people, I love working together and creating something out of the business environment.

I am optimistic and I am going to sleep with the thought that sooner or later I will have a revolutionary idea.

I saw a lot of similar cv, and I like problem solving, from mathematical games to the code of a program to create a cv in pdf without using illustrator (like this).

I strongly believe in cryptocurrencies. If you disagree, write me.

SCHOOL

Certificate in Computer Science at Itis Valturio, Rimini
2009-2013

Degree in computer engineering at Cesena
2013-2016

EXPERIENCE

Senior Front-End Developer - Conio srl

January 2020 - Present

Milano, Italia

Responsible for all frontend apps. This includes some internal and external backoffices, company site and custom emails.

- Lead of company site (full NextJS + TS + Storyblock cms, hosted with Vercel).
- Lead of B2B backoffices used by Conio and partner (React + TS + GraphQL + apollo + cypress).
- Creation of tools to increase productivity by automating tasks (Node js).
- Use of HSM keys in the browser running custom firmware to resolve multipart-sign process.
- Maintenance of responsive transactional emails (custom gulp.js project).
- Drink a good beers with colleagues in the evening, and try to explain to new colleagues that crypto will be the future.

bitcoin crypto react graphql less typescript+ react-apollo typescript

Company Site

EXPERIENCE

YNAP

Front-End Developer - Yoox-Net-A-Porter

-  November 2016 - April 2019
-  Zola Predosa, Bologna, Italia
-  Maintenance of 4 important e-commerce sites
-  I deal mainly with the maintenance of projects developed with .NET stack with js and css front-end side. The difficulty lies in the dependencies of other teams and therefore the coordination with them. I often develop in TDD and try to create internal tools if necessary
-  html css scss js es6+ c# .net jest
- 
 - Moncler www.moncler.com
 - Missoni www.missoni.com
 - Stone Island www.stoneisland.com
 - Stoneisland30 www.stoneisland30.com
- internal tool for developer

Technical tutor for a school project - Associazione Golinelli - Yoox-Net-A-Porter

-  May 2018 - December 2018
-  Bologna, Italia
-  Technical tutor
-  I joined the boys in the realization of a school project aimed at a realization by their school. The main task in addition to programming with the kids was to make them autonomous in just 4 months and explain some concepts of programming
-  react css es6+
-  Water Community

SKILLS

typescript js next js react vue redux
c# .net java es6+ css scss react-js
firabse accessibility DOM node gulp
x-browser git gatsby-js jquery oop
typescript graphql redis
styled-component
somethingOfNew-please

MY PROJECTS

- **react-use-zendesk** <https://www.npmjs.com/package/react-use-zendesk> React Zendesk Web Widget integration written in typescript.
- **react-imagezoomable** <https://bit.ly/2S2vSUE> a performing library for display a larger image zoom layer without change ratio
- **adflyroboTOR** <https://bit.ly/2UR3WoI> an experiment with tor network and test automation to click a banner, changing ip every time
- **Musicat** <https://bit.ly/2CkIG48> Good music player for android with unique feature like bubble (like fb) and streaming server listening
- **spending-division** <https://bit.ly/2EBRi86> a react application built for make easy the process of divide a spending when you live with other people
- **gianni-accordion-js** <https://github.com/multivoltage/gianni-accordion-js> a performance pure js accordion developed based with accessibility
